## From the CFO's Desk

I am pleased to announce the release of our maiden tax transparency report. I would like to thank all our stakeholders for their support and confidence. We will continue to review and enhance our reporting to meet the expectations of our valued stakeholders.

Welspun Corp Limited (WCL), is a flagship company of the global conglomerate Welspun Group. Amongst India's fastest-growing multinationals, Welspun Group has a leadership position in line pipes, home textiles, infrastructure, warehousing, retail, advanced textiles, and flooring solutions.

WCL is amongst the top large diameter line pipe manufacturers in the world with manufacturing facilities located in India, USA and Saudi. Since inception it has successfully supplied pipes to several challenging projects across the world in 6 continents and more than 50 countries. It is supporting the energy transition through enabling the transport of hydrogen for use as a cleaner fuel. Additionally, its line pipes will also be used for the movement of CO<sub>2</sub> in Carbon Capture Utilization and Storage.

The Revenue from operations of WCL in FY 2023 was INR 9,758.10 crores, Profit before tax was INR 333.63 crores and Profit after tax (attributable to owners) was INR 206.69 crores. Our total tax contribution and collection during FY 2023 was INR 1,598.94 crores which includes direct taxes and indirect tax collected and contributed to the exchequer.

WCL is a purpose driven organization which aims to maximize stakeholder value. One of the important contributing factors to this is the adherence to the highest standards of Corporate Governance. Transparency, Accountability and Integrity are the three pillars which guide us in the effective functioning of the organization.

In the past, tax transparency was primarily oriented towards the tax authorities. Tax reporting has taken place by way of disclosure in the financial statements. Given the complexity of tax, and the different treatment of items for tax and accounts, the significance of the disclosures is often difficult to comprehend and interpret for all stakeholders. Therefore, it is essential that we explain not only our compliance with tax laws and disclosure requirements and guidelines, but also our overall approach that sets the context for our tax liabilities.

We welcome comments and feedback from all our stakeholders. We acknowledge the importance of tax transparency in respect of our tax contributions and look forward to sharing more progress on our unstinting commitment to Corporate Governance.

**Percy Birdy**  
Chief Financial Officer

### Tax Principles

Our guiding Tax Principles are consistent with the three pillars of our Corporate Governance framework.

#### 1) *Transparency*

**Structure:** We do not use complex tax structures that are intended for tax avoidance, have no commercial substance, and do not meet the spirit of local or international law.

**Reliefs and Incentives:** We endeavour to claim all applicable reliefs and incentives in accordance with the relevant tax legislation.

#### 2) *Accountability*

**Governance:** The Company has a well-established three lines of defense model comprising Management Control, Controlling Functions and Independent Assurance that governs effective functioning of the organization that supports adherence to policies.

**External Advice:** We seek external advice from reputed professional firms where there is ambiguity as to the application or interpretation of tax laws.

#### 3) *Integrity*

**Compliance:** We aim to comply with the spirit as well as the letter of the law. We act at all times in accordance with all applicable local tax laws.

**Collaboration:** We foster professional and constructive relationships with tax authorities, government bodies and industry associations to discuss tax aspects as permitted by laws and practices to help shape tax legislation.

### Tax Strategy

- We strive to pay the fair amount of tax within the right time, on the profits we generate, and in the countries where we create the value that leads to those profits. This is an outcome of respecting the tax laws applicable in each country, in letter and in spirit.
- All related party transaction are subject to prior approval by audit committee as per Companies Act and SEBI. We ensure that the transactions with related parties are at an arm's length test and that the transfer pricing is in accordance with the generally acceptable transfer pricing rules and regulations prevailing in the countries, in which we operate.

- All tax returns are prepared and filed in the specified forms within the stipulated timelines, as required by the applicable law.
- The records required by tax laws or which will be useful to resolve any queries from the tax authorities are appropriately prepared and retained.
- We use specialized software for effective tax compliance. It provides IT-enabled legal support services relating to tax and regulatory compliances. This enables the management to get a comprehensive view of the organization's compliances and control mechanisms through detailed dashboards. It results in an effective functioning at an operating level by creating a comprehensive matrix of laws and provides necessary information to comply with them.
- It is an imperative to employ competent, qualified and trained professionals with tax expertise and understanding of our tax principles.

### Tax Risk Management & Governance

- We have a standard operating procedure in place for evaluating all tax positions and decisions to be adopted. It follows a preparer-reviewer-approver approach for all tax positions
- We have a professionally qualified tax team reporting to the CFO who is responsible for advising management and business of appropriate tax implications on business decisions.
- The tax function works in coordination with the other business functions to ensure that tax considerations are duly factored in business decision-making.
- Internal control procedures and processes are subject to self-assessment reviews and audits.
- Material tax risks or disputes are reported to the Audit Committee for its consideration. This review includes assessment of probabilities of different outcomes, cash flow and reputational impact. The Audit Committee then updates the Board.
- We work with industrial chambers and whenever possible contribute in development of tax laws and practice.
- Our in-house tax team and advisory professionals understand the applicable tax laws thoroughly and we align our tax behavior with our code of conduct, corporate values and professional and ethical responsibilities.
