---	--

Dear Madam/ Sirs,

**Subject: Receipt of an Order in the US.**

Welspun is pleased to announce it has secured a significant order for a Carbon Capture Pipeline project in the United States. This order is for supply of 785 miles (1,256 KM) or 100,000 MT (approximately) of High Frequency Induction Welding (HFIW) pipes, and would be used for transporting captured carbon dioxide.

The pipes for this order will be produced from our Little Rock plant in the U.S. and the same will be executed in FY 23-24.

This large strategic order once again reflects our strong culture of engineering excellence and the trust customers have on our capabilities to execute large-scale projects, both in terms of supplying impeccable quality, and for on-time deliveries.

Our strong supply track record has positioned both Welspun's Helical Submerged Arc Welded (HSAW) & High Frequency Induction Welding (HFIW) plants as the top facilities in the North American market.

With this project, we would not only significantly contribute in reducing the CO2 emissions in the environment, but also it is a big leap forward for us in strategically meeting our environmental, social, and governance (ESG) goals, as set out towards a cleaner and greener planet.

The above is in compliance with Regulation 30 of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 and the Company's Code of Practices and Procedure for Fair Disclosure of Unpublished Price Sensitive Information.

Thanking you.

Yours faithfully,

For **Welspun Corp Limited**

**Pradeep Joshi**  
**Company Secretary**
